Workshop Area:

10 000m<sup>2</sup>

Offices Area:

1 000m<sup>2</sup>

160 Employees & Workers

Test Facilities up to 0,5MW

Stronger R&D

New machine tools

ENSIVAL-MORET was born in 2000 from the merger of MORET more specialized chemical, food and paper mill, and ENSIVAL, chemical processes, petrochemical and steel. These two companies have pooled their technical and commercial means to form a worldwide recognized group in specialty such as phosphoric, sulfuric, sugar, oil refining, petrochemical (PTA, polypropylene, ...). Located in France, Belgium, China and Brazil, ENSIVAL-MORET partners customers throughout the world. In 2006, the company FAPMO joined the group providing its expertise in sea water desalination and special pumps for Navy. ENSIVAL-MORET has built a repair center network offering its customers the maintenance repairs and upgrades for all pumps whatever the manufacturer. The service shops are located in Boulogne-sur-Mer, Saint-Quentin in the Aisne, Tours, Bordeaux, Marseille, Lyon and Metz.

**Markets**

Agri-food Industry  
Chemical / Pharmaceutical / Cosmetic Industries  
Sewage water / Waste water  
Energy / Nuclear / Hydroelectric  
Environment / Waste processing / Gas treatment  
Gas / LNG / LPG  
Various industries  
Paper manufacturing  
Petrochemicals / Oil industry  
Iron & Steel / Metal industries  
Sugar industry

**Products**
